Art Unit: 1795

1. Claims 26 to 34 and 40 to 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 26 and 49, the basis for the amount as claimed (25% and 10 to 25%) is not defined. It is unclear if this is a molar amount, a weight amount or something else. Clarification is required.

The rejection of claim 28 is maintained. The term "fluorinated silica alkoxide" is confusing and not a term that is commonly used in the art. It is unclear what is intended by this term. While applicants argue that it is in fact known in the art and direct attention to the attached article, the Examiner notes that this term used in the Ciriminna article is used to identify a glass or a sol gel reaction *product*. This is different from an organo-*silane* reactant. An organosilane is different from silica. Claims 29 and 30 provide specific formulas for the fluorinated silica alkoxide such that the term used in these claims is definite. (As an aside the Examiner notes that the formulas shown in claims 29 and 30 do not reflect any type of silica but since applicants are allowed to be their own lexicographer the Examiner has opted not to reject these claims as being indefinite).

2. Claims 26 to 34 and 40 to 52 are neither taught nor suggested by the prior art. In view of applicants' amendment and their remarks made in the papers filed 9/27/2010 the Examiner has withdrawn the obviousness rejections made in the previous office action.

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
